WHIPPED TO A FINISH.

The Galveston News now comes out like a man and says the Sackett resolution should be submitted to a vote of the people. The News says it made its fight and lost, that it was whipped and whipped to a finish. Following is the comment of the News in full relative to the submission of the resolution:

"The report comes from Austin that the Governor will file the Sackett resolution with the Secretary of State. This must mean that he at least will have no part in any litigation that may be instituted to test the validity of that enactment. If so, Governor Ferguson has set an example which all the rest of us may well follow. It seems very clear to the News that the manner in which the House agreed to the Senate amendments was technically irregular. But no one will seriously contend that the Senate amendments would not have been agreed to by a full two-thirds majority if all the members of the House had been present and if the question had been presented at a moment when the House was in its normal mood. The Sackett resolution, even as amended, expresses the will not merely of a majority of each House, but of two-thirds the members of each House. The lawlessness will be, not in submitting this proposal to the people, but in seizing on the technical grounds that have been afforded to prevent its submission.

"The News is as unwilling as the Governor seems to be to have any part in the lawless proceeding. The News fought its fight—and lost! It was whipped, and whipped to a finish. But there is another round yet to be fought, and it conceives that only by admitting its defeat in the first round can it qualify itself for engaging in the second. The News nominates itself as one of the combatants in the fighting of this second round by acknowledging that it was well whipped in the first. It will strive to convince a majority of the people of Texas that the proposal made by the Sackett resolution is unwise. Possibly the arguments it will make will fall of their intended purpose. Assuredly they will, if the people shall be as impervious to them as the members

of the Legislature were. But the News is not daunted by the prospect. If the people of Texas wish to have the University and the Agricultural and Mechanical College separated, then they ought to be separated. The News thinks that they ought not to be. But the evil consequences of separation cannot be as harmful as the consequences of denying the people an opportunity to express their will. There is as much expedience as virtue in accepting the action of the Legislature as valid and conclusive."

The News' nomination of itself as one of the combatants to fight the adoption of the resolution will not frighten any of the friends of the A. & M. College. The News will never be able to fight harder than it did for the adoption of "Resolution 18," yet the people snatched it under by nearly six to one. The present resolution

separating the College and the University, making them independent of each other and taking them out of politics, will be adopted by the people by a still greater majority than "Resolution 18" was defeated.

The trade balance in favor of the United States for the month of February was \$173,604,666. Things are certainly coming our way and grand old Woodrow is leading us beside the still waters. If the Germans will only let him alone he will soon have the United States on a foundation as solid as the rock of eternal ages.

The Thrall oil field has spread like wild fire and now reaches out many miles in every direction. Every fellow who owns land within twenty-five miles of the gusher claims to be in the proven field or in "direct line" with the oil bearing sands.

Spring fashions

YOU'LL see quite a variety of good models in suits for young men this spring.

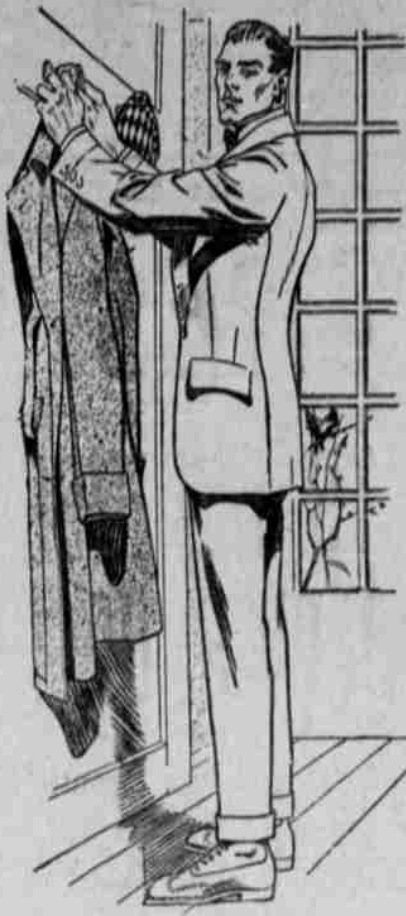

Hart Schaffner & Marx

Varsity styles are the particular choice of most of the young men. There are some very interesting style ideas shown in them; new lapels, new shaped backs, new collar effects; and a number of new things in waistcoats.

If you're going to dress just right, you must see these; especially Varsity 55. You'll be surprised at the value you'll get at \$20.

The federated charities, the humane society or somebody should get busy and look after the poor old delivery horses that are daily being mistreated in this city. A number of them are utterly unfit for service. We do not refer to those being used by the merchants, but those of independent deliverymen. Some of them are so poor a drunken Indian could read a Dutch almanac through them, and honestly they do not look as if they were able to walk, yet they are goaded to the last limit of their strength and made to pull loads. It is an outrage to the name of humanity and civilization.

Mohammed said the ruler, meaning the ruling power, who appointed a man to office when there was a man in the kingdom better qualified for the position, sinned against the State and the people. From this we take it that this thing of paying off political debts through the appointive power is not new by any means. No doubt great outrages are committed in this way, and it will be well for Texas, for all the other States and for the Nation itself when the method of appointments is changed.

A formal ruling has been made regarding the narcotic law, which went into effect March 1. The ruling is to the effect that the law is law with the bark on it.—Temple Telegram.

Colonel Bailey of the Houston Post refers to these frosty mornings as "spring farebacks." They are worse than that. The past few mornings were veritable explosions.

The widow of Stonewall Jackson died today. Every true Southerner who reads these words will bare his head out of respect to her blessed memory.

A Kansas farmer went to the Panama Exposition and brought back as a souvenir a hinge off the Golden Gate.

The dope fiends are no doubt thoroughly convinced the law not only barks, but bites.

If Italy joins the allies, poor Austria will be between the upper and nether millstones.

Weather predictions call for stormy weather during the latter part of March. Wind storm and hail insurance is cheap. We will be pleased to write you up. George A. Adams. Phones 265 and 539.

COHEN BACK TO
BRAZIL ONCE MORE

Sea Wanderer Denied Admittance to United States and Has Another Sea Voyage Ahead.

[By Associated Press.]
New York, March 24.—Back again to Brazil goes Nathan Cohen, champion sea traveler, who has lived aboard the Lamport and Holt liner Vasari since last May, with admittance denied him both here and in Brazil because of his mental condition.

He will sail on his fourth round trip March 27, and, unless all signs fail, he will be back in New York harbor again in six weeks. Then his friends ashore will make an attempt to have him landed.

Cohen's last sea voyage seemed to benefit him greatly, and physicians believe that when the Vasari docks in Brooklyn again he will be well. Samuel Lippman, Ellis Island representative of the Hebrew Sheltering and Immigrant Aid Society of America, decided Tuesday not to risk Cohen's chances of landing with a board of inquiry until he is further improved.

When Cohen lands here—if he is finally permitted to land—the society expects to let him remain ashore long enough to know how it feels to stand on earth, and then put him aboard another ship and send him to Russia, where he has relatives and wants to go. Cohen lived in Russian Poland before he emigrated to Brazil.

On the way to Brazil Cohen will be assigned to light duties. During the ten months Cohen has been on the sea he has traveled more than 33,000 miles.
